Professional Summary

Computer Science Engineering student with a strong foundation in IT systems, SQL, DBMS, Operating Systems and Computer Networks. Experienced in data analysis, process monitoring, reporting and automation using Python, MySQL, Power BI and Flask, with exposure to IoT and SAP. Analytical, detail-oriented and quick to learn, seeking a Senior Analyst – Technology Risk role to support IT controls, risk analytics and client engagements.

Education

New Horizon College of Engineering — CGPA: 8.33
Bachelor of Engineering in Computer Science and Engineering — 2023 – 2027 (Expected)

DR TF Boys PU College, Davanagere — Score: 90%
XII Standard (Department of Pre-University Education, Karnataka) — 2023

Sri Vinayaka Education Trust High School, Davanagere — Score: 74%
X Standard (Karnataka Secondary Education Examination Board) — 2021

Projects

Smart Waste Management System with Route Optimization

- Developed a Machine Learning–based waste management system to predict waste bin fill levels and optimize collection routes, using data analysis to support operational decisions.
- Built a Flask web application with SQL integration for real-time monitoring, automated exception alerts and route management.
- Implemented route optimization logic to reduce unnecessary travel distance and improve operational efficiency.

Automated Price Tracker and Notifier

- Developed a Python-based automated price tracking system to monitor real-time product prices from e-commerce websites using web scraping.
- Implemented scheduled monitoring and rule-based automated notifications to alert users when product prices dropped below a threshold.
- Processed and stored historical price data in a database to analyze pricing trends and support informed, data-driven decisions.

Technical Skills

- **Programming:** Python, C++
- **Backend Development:** Flask, FastAPI
- **Data Analysis & Reporting:** Pandas, NumPy, Matplotlib, Power BI, Machine Learning, Scikit-learn
- **Database and Query Language:** MySQL, SQL, DBMS
- **Emerging Technologies:** Internet of Things (IoT), SAP Generative AI
- **Web Fundamentals:** HTML, CSS
- **Tools:** Git, GitHub, VS Code, Web Scraping
- **IT & CS Fundamentals:** Operating Systems, Computer Networks, Data Structures and Algorithms, OOP

Certifications

- **Introduction to Internet of Things** | NPTEL | Jan–Apr 2026
- **SAP Certified – SAP Generative AI Developer** | SAP | Aug 2026
- **Python for Machine Learning** | IIT Bombay Spoken Tutorial | May 2025
- **Git Training** | IIT Bombay Spoken Tutorial | Nov 2025
- **Cisco Certified Network Associate (CCNA)** | May 2026
